Reasons to Ride
Bicycling is the most efficient form of personal transport ever devised, and is beneficial to the rider's health. For errands and commuting, it's a great way to save time and money while doing your part to reduce pollution.
China Camp State Park
(415) 456-0766
Multiple trail use: Be courteous of other trail users, yield right-of-way, and obey park regulations. Closed at sunset.
Puerto Suello Hill
Bicyclists may use U.S. 101 shoulder northbound only
San Quentin
Bicycles may use I-580 shoulder and ramps shown here.
Caution: Fast moving traffic
Richardson Bay Bridge
Bicyclists may legally ride on U.S. 101 shoulders between Shoreline Hwy. and Seminary Drive interchanges.
Richmond-San Rafael Bridge
Bicycles are currently not allowed on the Richmond-San Rafael Bridge. Bicyclists may use Golden Gate Transit Route 40 from San Rafael to BART Del Norte Station in El Cerrito.
Golden Gate Ferries (415) 455-2000
Larkspur and Sausalito ferries provide direct service to the San Francisco Ferry Building. Bicycles per vessel: 15 on Del Norte, 20 on Mendocino, 25 on other vessels.
North-South Greenway (Proposed)
A proposed multi-use pathway generally paralleling Highway 101 along the old Northwestern Pacific Railroad right-of-way between Sausalito, Mill Valley, Larkspur, San Rafael, and Novato.
East-West Bikeway (Proposed)
A route including on-street cycling and a multi-use pathway generally following Sir Francis Drake Boulevard between Point San Quentin, Larkspur, San Anselmo, San Geronimo Valley, Point Reyes Station, and Inverness.
Portions of the multi-use paths are already in use. The MCBC is working with public agencies in hopes of completing these transportation and recreational facilities.
West Sidewalk
M-F: 3:30pm-9pm
Weekend, Holidays: 5am-9pm
East Sidewalk
M-F: 5am-3:30pm, 9pm-5am
Wknd, Holidays: 9pm-5am
Caution: Narrow sidewalks, heavy pedestrian use
Countywide Bicycle Route System
Knowing how to get there is half the challenge. The County has come up with a numbered route system that directs riders through and to Marin communities and points of interest.
Generally, odd numbers run north/south, even numbers run east/west. Route numbers grow northward from the Golden Gate. Many signs are already in place. On the map, the system is lined in yellow and marked with green route signs. A yet-to-be-built route is shown in gray.
Additions and Corrections
If you have additional information that you feel should be added to this map, or if you spot errors or omissions, please let us know. Your comments will be considered for inclusion in future editions of this map. Send your comments to: joe@breezebikes.com

Marin County Bicycle Coalition (MCBC)
We do the work, you take the ride
Reducing our carbon footprint, maintaining fitness, saving money and experiencing nature are a few of the huge benefits of biking in Marin. The premier Bay Area cycling destination.
MCBC has been working on five main fronts since 1998
Safe Routes to Schools
Building Marin's bike & pedestrian infrastructure
Share the Road campaign
State and national advocacy
Public outreach
