

# TEAM NOTICE #1/2017

---

## Tyres

tires, tiya, teiars, pneu, pneŭo, reifen, däck, لا سد تيك, ban, dekk, banda, 轮胎, isondu, タイヤ, gumi, gomma, opona, ยาง, neumático, шина, גומי, pneumatikoen, العجلة إطار, 타이어, टायर टायर tyres

The Bridgestone World Solar Challenge is held on public roads and solarcars must be fitted with tyres suitable for that purpose.

**Experimental (uncertified) tyre approvals from previous events are not valid for 2017.**

A tyre is compliant with Regulation 2.22 if it satisfies one of the following conditions:

1. The tyre has a DOT code or E mark moulded into the sidewall (examples are shown below).
2. The tyre was supplied to you by a manufacturer who has had the use of an experimental tyre approved by the Australian road transport authority, and the Organiser has been informed by the manufacturer that they have supplied your team with tyres (see Regulation 2.22).

DOT certifies the tyre meets the requirements of the United States Department of Transportation

The E mark certifies the tyre complies with UNECE standards.

**At this point in time (December 2016) Bridgestone are the only manufacturer who has declared their intention to seek approval for the use of experimental tyres.**
